November, 2019

Dear Superintendent,

The Office for Education Policy (OEP) at the University of Arkansas has recognized your district as one where students demonstrated high growth on the ACT Aspire! We think growth is the best indicator of the positive impact that your school is having on students. **Enclosed please find the official paper copies of your OEP awards.**

Outstanding Educational Performance awards were based on the 2019 content growth score calculated by the Arkansas Department of Education. These growth scores reflect how much students at the school improved from 2018 compared to how much they were expected to grow considering prior achievement. To learn more about how we determined the OEP award winners and to see the full list of award recipients, you can view the report on our website officeforeducationpolicy.org.

Congratulations again on your OEP award and let us know if there are topics that you would like for our team to research.

For updates and insights, please follow our blog at www.officefordpolicy.com, and to be added to our weekly updates and roundup of education news, send an email to oepe@uark.edu with the subject line "Sign me up!"

Sincerely,

Sarah McKenzie, Ph.D.
Executive Director
Office for Education Policy
